Full stack web developer coming from a background in leadership from the fast-paced retail industry. Understands the full stack of a web application including working with API's. Aware of the Scrum and Agile methodology and highly skilled at communicating. Considered to be relentless at delivering assignments on time, a quick learner who pays attention to the details and has advanced problem solving abilities.

TECHNICAL SKILLS:

Languages: React, JavaScript(ES6), Angular, jQuery, MySQL, MongoDB, Firebase, Node, HTML

Applications: Material UI, Bootstrap, Git, Postman, Jira, Handlebars, CSS3, VScode, Express, Jest (ES6 Testing)

PROJECTS:

RambleSpace | Github: https://github.com/jlw429/RambleSpace_jlw429 Website: ramblespace.jasonlwest.com
Welcome to RambleSpace, a social media app that resembles Twitter. Full stack app that is mobile optimized with a responsive design as well as desktop friendly. It has the ability to view "rambles" (posts) full authentication to add and login users, like and unlike items, notifications as well as set up a profile for the user to change his/her picture, update bio, city and website. Technologies used: React, Firebase, express, busboy, Material UI.

Tetris | GitHub: https://github.com/jlw429/Tetris Website: https://jlw429.github.io/Tetris/
Tetris game built with React and specifically React Hooks. Traditional Tetris game which has you able to rotate the shapes using the up arrow on your keyboard. You have the opportunity to hold the down arrow to move the piece faster, as well as the left and right arrows to place where you need it.

Employee Directory | Github: https://github.com/jlw429/EmployeeDirectoryPro19 Website: https://jlw429.github.io/EmployeeDirectoryPro19/
Front end react project using the randomuserAPI to fetch data, tables to manipulate the data and have the ability to sort by first name/last name as well as search the table to find a persons name. Technologies used: React, randomuser.API, bootstrap-react.

Thats My Jam | GitHub: https://github.com/jlw429/MusicArtists Website: https://jlw429.github.io/MusicArtists/#
A way for the user to learn more about an artist they may have heard on TikTok or the radio. It gives a short biography of the artist or band, you also have their top 50 songs and the app has the technology to show the music video from youTube that populates as a modal in the middle of the page. The app was built from scratch using Javascript,Jquery, Bootstrap, CSS, HTML and using APIs from the audio database, last.fm, and youtube.

Blog | Github: https://github.com/jlw429/JasonsBlog
A full-stack blog built with React, node.js, express and MySql. Simple blog with the ability to follow the crud operators of create, read, update and delete.

Weather Dashboard | GitHub: https://github.com/jlw429/HW6Weather Website: https://jlw429.github.io/HW6Weather/
App was developed for a quick way to type in a city, get the city, current conditions and five day forecast. Technologies openweathermap API, Javascript, jQuery, Bootstrap.

WORK EXPERIENCE:

The Kroger Company | Store Manager (2016 – 2020)   **Rochester, MI**

Increased customer satisfaction while bringing strategic direction to my team to help achieve departmental goals. Maintained a positive attitude and presence on the sales floor. Adjusted weekly sales forecasts while accounting for sales trends and seasons. Educated associates on new processes and procedures promoting continuity in the workplace. Responsible for leading multiple deadlines to completion in regards to in-store and district priorities. Hired and terminated team members and processed paperwork while adhering to FMLA, labor, and OSHA requirements.

- Lead daily staff standups where every supervisor briefly reports updates to the team.
- Increased grocery department in-stock rate from 93.82% in November 2018 to 98.81% by May 2019.
- Improved the store's grocery pickup department to be number two in the Michigan Division for customer pick-up time at 5 minutes 47 seconds on average in 2020.

Publix Supermarkets, Inc. | Store Manager (2012 – 2016)   **Nashville, TN**

Asst. Store Manager (2008-2012)   **Nashville, TN**

Ensured legal compliance while handling sensitive and confidential information and documents. Resolved conflicts between employees promoting a cohesive team while boosting morale and providing top-notch customer service. Hired and dismissed team members as needed. Designed, tracked, and analyzed store reports. Managed projects while producing positive results. Met corporate goals and forecasted weekly sales.

- Worked on a three month special project re-developing district policies regarding shoplifting. This process lowered unidentified shrink 7% throughout the district.
- Winner of the 2013 Safety Award for the Atlanta division.
- Led and directed a team of 150+ individuals within a supermarket averaging $700-850K in sales weekly.

EDUCATION:

Full Stack Certificate | Michigan State University   **East Lansing, MI**

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Bachelor of Science | University of Central Florida   **Orlando, FL**

Major in Health Information Management, Minor in Health Care Administration.
